

Peace of Mind. Now at a 25% Savings.

Take advantage of a special offer now and get a 25% off on our Qualification Services (IQOQ and IPV).

What are our Qualification Services?

A service to help our customers in regulated industries qualify equipment to meet governmental compliance standards, such as GLP, GMP, ISO, and various international standards.

Installation Qualification and Operational Qualification (IQOQ) Service verifies and records that an Applied Biosystems instrument is, at the time of testing, initially installed and operating in accordance with Applied Biosystems specifications.

Instrument Performance Verification (IPV) Service re-verifies that a previously qualified Applied Biosystems instrument is, at the time of testing, operating according to Applied Biosystems specifications.

Advantages of our Qualification Services

- Support regulatory compliance including QSR, ISO 9000, GLPs, and GMPs
- Minimize lab start-up time
- Save verification time and cost
- Reduce need for in-house technical expertise
- Get manufacturer's expertise and support
- Peace of mind

For more information, please contact your local Service Sales representative: email anztechsupport@appliedbiosystems.com, or call 1800 63 63 27 (Australia) or 0800 63 63 27 (New Zealand).

* This special promotion is available in Australia and New Zealand. Promotional discount is available until June 28, 2008. Promotion cannot be combined with other promotions or discounts. Customer must pay for service in full in advance. Purchase order must be received within two weeks of date of service quotation. Void where prohibited. Other restrictions may apply. All discounts are based on local list price. Discount will be applied off the list price on the date Purchase Order is received at Applied Biosystems. All prices exclude any applicable delivery and/or local tax. Please contact your Service or Sales Representative for other details of this promotion.
